1. Executive Summary

WDU Trust Token (WDU) is a fixed-supply BEP-20 token on the BNB Smart Chain with a total supply of

700,000,000,000,000 WDU.

Key contract features:

• No mint function

• No burn function

• No transaction tax or fees

• No hidden owner functions

• No privileged control mechanisms

The project emphasizes transparency and is intended for basic Web3 utilities, community usage,

and educational purposes. WDU is not presented as an investment product.

2. Token Specification

Name: WDU Trust Token

Symbol: WDU

Decimals: 18

Total Supply: 700,000,000,000,000 WDU

Standard: BEP-20

Network: BNB Smart Chain

Contract:

0x74D7d1aD19bD14655cD0Ab26BEcc57ED69d69413

Verified on BscScan: 2025-12-18

Contract design:

• Full supply minted at deployment

• No minting privileges

• No tax or fee mechanisms

• No pause or blacklist functions

• Clean and minimal verified code

6. BscScan Checklist

Verification completed:

✓ Source code verified and matches deployed bytecode

✓ No compiler warnings

✓ Read and write functions documented

✓ Contract creator address disclosed

✓ No proxy contract

✓ Transparent ownership status

All standard BscScan token update requirements are satisfied.
