Clarification & Transparency Document – WDU Trust Token

(WDU)

Educational BEP-20 Reference Token on BNB Smart Chain

Why This Token Exists:

WDU Trust Token (WDU) is a minimal, fixed-supply BEP-20 token deployed on BNB Smart Chain mainnet to serve as a transparent, real-world reference implementation for educational and technical purposes.

Its primary purpose is to enable practical, on-chain observation of standard BEP-20 behavior in a live network environment — including transfers, approvals, allowance management, event emission, and gradual holder distribution changes.

The token demonstrates how an immutable, standard-compliant contract operates under real mainnet conditions (gas usage, transaction finality, permanent ledger records).

Key Facts:

- The contract is immutable: no minting, no burning, no taxation, no upgradeability, no privileged functions.
- Total supply permanently fixed at 700,000,000,000,000 WDU (700 trillion).
- Tokens are distributed manually upon educational request only — fully visible on-chain.
- No ICO, presale, public sale, liquidity pool, or exchange listing exists.
- Project has no corporate structure, no legal entity, no investors, no financial operations.

Who Benefits:

- Students learning smart contract fundamentals
- Developers studying BEP-20 mechanics
- Researchers analyzing immutable on-chain behavior
- Technical reviewers examining minimal token implementations

Official Verification:

Contract Address: 0x74D7d1aD19bD14655cD0Ab26BEcc57ED69d69413

Verified on BscScan: December 18, 2025 (exact source code match)

Name / Symbol: wdutrust / WDU | **Decimals:** 18
